

**“ Is Your Firm At Risk? Risk Management And Business
Continuity Planning”
A Seminar with Brian Rogers**

Who Should Attend? Anyone who is responsible for managing a law firm

Risk Management and Business Continuity is covered under rule 5.01 of the Solicitors' Code of Conduct and therefore firms have a regulatory obligation to ensure they plan accordingly. In addition, firms need to be able to show commercial and corporate clients, for tendering purposes, that they have workable continuity plans in place.

This seminar will give attendees an insight into the need for effective risk management and Business Continuity Planning.

Brian Rogers is the Operations Director and Head of Risk and Compliance at Lewis Hymanson Small advising law firms and Claims Management Companies on their referral arrangements. He also advises firms facing SRA investigations and referrals to the SDT and was involved in a case that was investigated by the SRA for six years and the longest ever heard by the SDT.

Brian has been a senior executive within the legal profession for over 17 years dealing with all aspects of law firm management including risk and compliance. He presents training seminars to various organisations including law societies, professional groups, law firms, and various clients and provides firms with advice on a range of management issues. In his spare time Brian runs his own software company that supplies a web based risk and compliance management system into law firms.

Wednesday 15th of September 2010

1.30pm to 4.30pm

**Venue: Birmingham Law Society, Cornwall Buildings, 45-51 Newhall Street, Birmingham
